

For Immediate Release

Pippin Technical Changes Ownership

- *Tyler Everitt becomes President/CEO*
- *Christine Scanlon becomes CFO*
- *Company founder Al Pippin has retired*
- *The business and staff remain the same*

Saskatoon, SK (July 26, 2018) Pippin Technical Service Ltd, is under new ownership as of July 19, 2018. Previous employees Tyler Everitt and Christine Scanlon, become the President/CEO and CFO respectively. The company retains its name and all employees remain in place.

“Building on the legacy Pippin Technical has created in the last 34 years and continuing to serve our customers has been, and will remain, our highest priority. The relationships and trust we have built with our vendor partners and the broadcast community truly makes us who we are,” said President and CEO Tyler Everitt.

Operations will continue from the Saskatoon office, and all the products and services radio and television companies have come to expect from Pippin Technical Service Ltd. will continue to be offered, including studio, RF, STL, IT/Computer, telephony, automation, captioning, networked audio, audio processing, and full installation, service and support.

Pippin Technical is an equipment supplier and systems integrator, serving the broadcast industry since 1984. Located in Saskatoon, SK and serving broadcasters across Canada, Pippin Technical is the Canadian dealer for studio, RF, and automation products for radio and television. <http://www.pippintech.com>
